01 **Owazym**

Full-stack music streaming platform inspired by services like Spotify. A clean, responsive UI for discovering, playing and managing music with smooth audio playback and playlist support — built for performance, scalability and a polished user experience.

- Node.js
- Prisma
- Vue.js
- PostgreSQL

02 **Velora Online Cafe**

Full-stack restaurant web application with customer-facing and admin sides. Customers browse items by category, place orders, manage their profile and register or log in with a secure OTP-based password reset. The admin panel gives full control over menu and orders.

- Laravel
- Nuxt.js
- PostgreSQL

03 **3D Interactive MacBook Template**

Interactive Vue 3 + TypeScript template with a fully animated 3D MacBook scene built in Three.js and GSAP. The model renders full-screen behind the page content, with an exposed lid pivot animated on scroll — a reusable base with a resizable canvas and custom camera and lighting setup.

- Vue.js
- Three.js
- GSAP
- TypeScript
- Vite

04 **Oguz Trading Group**

Official web presence of an FxPro partner, covering daily market analysis, live trade sharing and risk-management training. A fully prerendered multilingual site in four languages, with per-locale canonical, hreflang, Open Graph and JSON-LD tags generated at build time.

- Vue.js
- Vite
- JavaScript
- SEO
